

jLAN Mobile Achieves Certified for Microsoft Dynamics GP – Microsoft’s Highest Standard for Partner Software Solutions

Hollywood, Florida November 26, 2007. jLAN Technologies, *Empowering the Mobile Workforce*, announced earlier this month that Microsoft has certified its jLAN Mobile Sales Suite to its highest standard for partner developed software solutions, making jLAN Mobile one of the few select software solutions to meet the new Microsoft standard.

jLAN Mobile achieved certification by passing the new Microsoft Dynamics software for ISV tests and securing recommendations from at least ten customer references. Certification also required jLAN Technologies to be a Microsoft Gold Certified partner and to have a Microsoft Support Plan service agreement.

“We are extremely proud to be one of the first ISV’s, amongst thousands, to achieve the Certified For Microsoft Dynamics designation. jLAN is committed to software excellence and achieving the Certified for Microsoft Dynamics GP is a reflection of our commitment” said Andres Link, President , jLAN Technologies. Link added, “The Certified for Microsoft Dynamics designation lets our customers and partners know that they can partner with jLAN with confidence and that we are making the right investments to further solidify our place as the leading provider of mobile solutions to the Dynamics community.”

jLAN Technologies was founded in 2001 and focuses on delivering mobile applications that help businesses automate their mobile sales operations. jLAN’s flagship product, jLAN Mobile Suite, runs on Windows Mobile devices and is designed for the sales and delivery workforce in variety of industries including food and beverage distribution, consumer packaged goods as well as other industries. jLAN’s mobile solutions save time for businesses by

eliminating duplicate data entry, speeding invoice and transaction entry and automating the collection of marketing data.

About Microsoft Dynamics

Microsoft Dynamics is a line of financial, customer relationship and supply chain management solutions that help businesses work more effectively. Delivered through a network of channel partners providing specialized services, these integrated, adaptable business management solutions work like and with familiar Microsoft software to streamline processes across an entire business.
